

# COLLEGE CHARITY & COMMUNITY ENGAGEMENT

## A message for students

### **Thank you if you gave feedback to support our Charity Review.**

We have now agreed a proposal to relaunch our Charity Work. We will continue to support one National Charity but we will also introduce opportunities for you to support other local smaller charities alongside our adopted Charity linked to your area of study. As part of the review we also received feedback about the benefits of supporting our local and the wider community. Many of you already have the opportunity to do volunteering as part of your course but we would like to expand the opportunities to all of you in the longer term. We will provide updates about this and the development of our charity/community engagement branding which we will also be introducing through your class rep.

As a starting point, we would like your help to choose our adopted Charity and we will shortly be asking you if you would like to vote alongside college staff. To help us move this forward, if you have a Charity which you would like us to consider, please email:

**[karen.senior@cambria.ac.uk](mailto:karen.senior@cambria.ac.uk)  
by 12.00pm on Friday 30th November**

The Charity must be a National Charity with a Welsh link and it should also ideally include volunteering opportunities.

Diolch/thank you

**David Jones  
Chief Executive**
